Human Lice Racketeering And Cowardice

If you want to know why Nancy Guthrie is dead, why George H.W. Bush is a hero, frame-up using call girls are used to try to sexually humiliate me as child seeking sex offender (because that its the best way to silence a George H.W. Bush John Foster Dulles killed Kennnedy John, Robert, Micheal L kennedy, Sonny Bono, and others) start with them.

Bodis in the Bathtub and the arson will not be investigared, Sextortino Raceketeers will not be arrested because Texas is a human filth dupster and these human waste cowards are the dumpters best fit. It was Texas cars that Stalked me all through Californinia, recurited role-players to keep me homeless in California and elsehere, and these cowards continue the coverups including the murder of Nancy Gurthies and the Racketeering and even poisonings carried out in Austin Strip clubs thar are the primary home of Fire, EMS, and others usign stages to stage what is not true rather than what is true. Each and every one of my books calls out the filth trash cowrdaice and lice of Texas law enforcement, and I will continue that as I continue to align the truth with the Color ofLaw commision of crimes (in furtherance of Obstruction of Justice) crimes to silence, defraud, threaten, and coerce Edward Paul Donegan.

My books also show and is archived on this disk underwear stain Mark Gonzales and his "community" created the arson that included burning the bodies in the bathub most likely the Talloid basd on the bleach soaked XXX Tall shirt left at the scene, that Gonzales friends and family members were in break-in to my 1001 Water street home and the coverup of that, and like Gonzales and the DA's of Jefferon/Travis defrauded the leases I did sigh and fake my credit so I would write my books in gutters, under bridges, etc., while thughs threated to kill me including the day I bought a computer (Danny and Virginia.)

I had thought one of the most diffiuclt things I would do in going to Dallas would be the imags of Lee Harvey Oswald being assasinated by the filthy worthless stench of Texa Law Enforcement, and of course Jack Ruby was killed in Dallas custody. Rather than me leases being excuted into performance they have been broken to make it easier sielnce me. I belive that long before Nancy Gurthrie went missing just as all my mail was being stolen and Nancy and I represented the same threat to the Deep State, confirming everyting Jen Moore ever said before she was killed.

The truth will come out Racketeetring and Genoracketeerind and coward lice shit filth of worhtless cowardice and corruption that Texas is and this truth will never be stopped and YES I can an will prove this all.

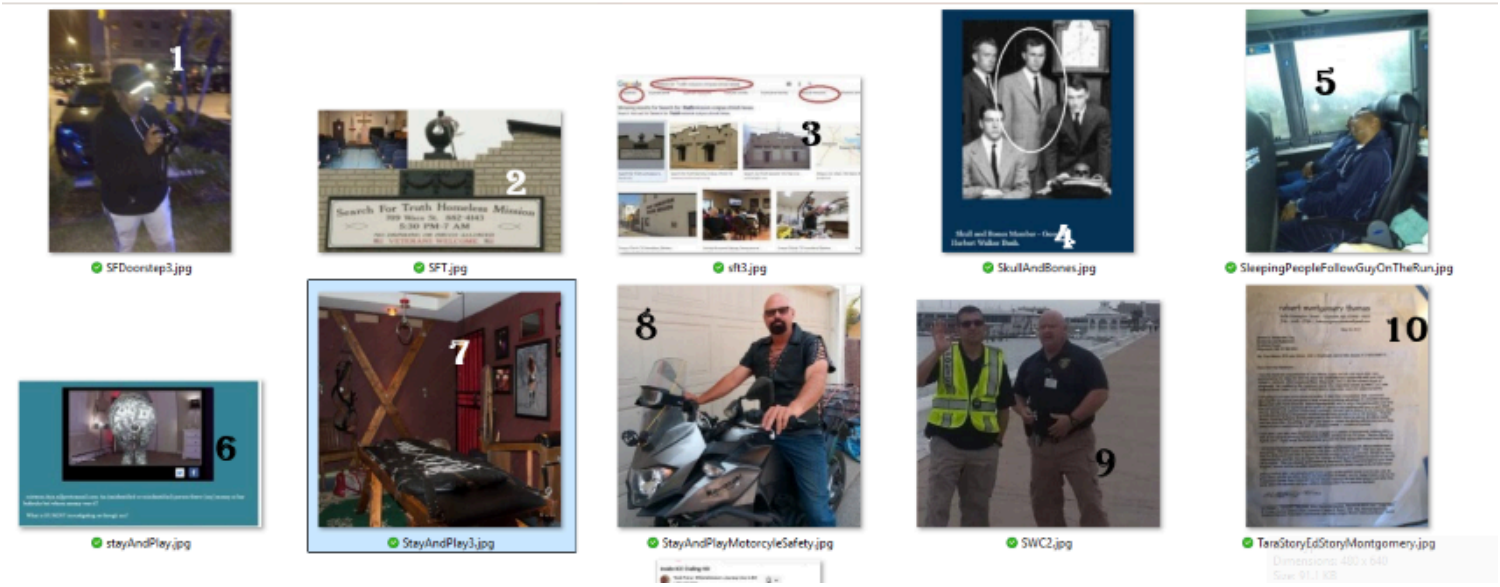
Explaing10imagesInImagesFolder.png is how ghetto life is studying me, framing me, sextorting me, and doing so in protection racket scheme to leave the ghetto (such as being police fire or ems scum) and trying to get into the fast lane to protect those in the fast lane. I happened to be going through the Archive images directory where some images are (others are in the LA Bound directory where this archive proves the point made in those chapters of the Big Bamboozle II) and found 10 images that tell the story pretty well storyboard style.



> In continuing Domestic Terrorism these people joined with my brother who had me false arrested, threatend to kill me over gay rights issues, hated my father and mother over those issues these Street People Ministers and their homeeless shelter operatives framed me and became the protectors of what they envied in my law abiding life.

As I go more into this the police have looked at times feverish as the homeless had about how they could setup operation in Stay and Play or with high price models if of course I was an escapee from prison or many other things they said the Marshalls and others wre in pursuit of. Whistle-blowers to the phony stories the police tell and

fabricated die and I can name about 25 including I assert Floyd Simpson who might have one day stopped Mark Gonzales who killed four in Corpus Christi and committed an arson.
